NEWSLETTER Vol. XXVI / No.1 Mar.2017

### **President's message**

Well Hello again my people. I just want to let you know that I am on a downhill slide. Sitting in the chair. Drinking coffee. Spending the day in my pajamas. Looked outside on Monday. Said I don't like it out there, not going out. Looked outside on Tuesday, said I don't like it out there, did not even bother to get dressed. This is the time of year that I do not like. Was so beautiful out, walked around the yard, my Artic Primroses were about 4 inches tall and looked like they were getting ready to bloom. Then we get this weather and no snow cover. Some places still have lots of snow and got more. All we got was cold. You would think with all this time on my hands and all the sitting around. I would have ordered my plants. But no. Still the best at putting everything off. But as always I have an excuse. Got a new computer. Had Vista, which they are going to discontinue upgrades for. So bought new tower. I like the desktop more than laptop, guess just stuck in the dark ages. Then not compatible with monitor. Had mine since bought first computer in 2001. Got a 24 inch screen. Much better for the eyes. Then started a war with the computer, I think it is winning, because I sure am not. Could not figure out how to print off an e-mail, and could not find the document that I wanted to print. To make matters worse, my niece go me a tablet, so had to buy a router so I can get a Wi-Fi signal. I have not been brave enough to try to hook it up yet. Maybe will wait till she comes back to visit again. Need kids to upgrade me. She was on her way back to university in Saskatoon, when I told her that I had the new computer. The first think she said was "Do you want me to turn around auntie and help you" I am not stupid, of course I said yes, yes, yes!!!! She also had to give me her old cell phone, as they are going to discontinue service to my cell phone also. Just too much new technology at once. And to top everything off, Explornet has bought out my internet provider, and I do not hear good things about them

# Spring Seminar and AGM

**Regina Floral Conservatory**

**Saturday March 25<sup>th</sup> 2017**

AGM from 10 – 12 pm

Lunch 12 – 1 pm

**Presentation 1-3 pm**

*by Gladys Ning*

**Lilies 101**

## BEETLE TRACKING

The 2015 specimen that was sent in and positively identified has been added to our provincial non-native species tracking list. Is there any chance that you have locational information on the beetle so we can begin mapping it on our provincial data management system (iMapInvasives) and tracking its spread?

Thanks again, [Ahdia](#).
